### **NOMINATIONS FOR THE IUGS EXECUTIVE COMMITTEE FOR THE 2012-2016 TERM**

A final reminder that the IUGS Nominating Committee invited all the IUGS Adhering and Affiliate Organizations and Commissions to submit proposals for candidates for each office within the IUGS Executive Committee for its next term 2012-2016. Elections of nominated candidates will take place during the IUGS meeting at the 34th International Geological Congress in Brisbane, Australia, in August 2012. Candidates may also be nominated by the Nominating Committee. If you wish to propose a candidate to be nominated by the Nominating Committee please contact the IUGS Secretariat (email: [iugs@usgs.gov](mailto:iugs@usgs.gov)) and request a copy of the nomination form, and information regarding the rules for nominations for the election of officers. The deadline for submission of nominations to the IUGS Secretariat has been extended to 31 January, 2012. The Nominating Committee in particular encourages parts of the world that have not been represented in the Executive Committee for a long time to identify exceptional candidates from their region.

### **THE JAMES HARRISON OUTSTANDING ACHIEVEMENT AWARD - CALL FOR NOMINATIONS**

The James Harrison Outstanding Achievement Award was established in 2004 to express the gratitude of the IUGS to those persons who have devoted an extraordinary amount of personal time and effort addressing the mission and the activities of the Union. Nominees for this Award should have made an outstanding contribution to the Union over a sustained period of time and must still be alive and thus able to accept the award in person on the occasion of the next International Geological Congress. Active officers of the IUGS Executive Committee, IUGS Committees as well as IUGS Commissions, Task Groups and Initiatives are not eligible for nomination for this Award. Nominations comprising a short covering letter, letters of support and a copy of the candidate's CV can be submitted by anyone in the IUGS family. Nomination packages should be submitted to the IUGS Secretary-General ([pbobrows@nrcan.gc.ca](mailto:pbobrows@nrcan.gc.ca)) with a copy to the IUGS Secretariat ([iugs@usgs.gov](mailto:iugs@usgs.gov)) before the deadline. The IUGS Executive Committee will evaluate the nominations and the successful candidate will be officially recognized on the occasion of the 34th IGC in Brisbane, Australia in August 2012. Deadline for receipt of nominations is 16 April 2012.

### **ANNUAL MEETING OF THE IUGS EXECUTIVE COMMITTEE (EC)**

The next meeting of the IUGS EC will take place in San Sebastian, Spain on February 14–17, 2012, thanks to the kind support of the Spanish Geological Survey (IGME), the city of San Sebastian and the Guipuskoa Diputation. On February 13 the ceremony for insertion of the Lutetian GSSP will be held at Gorrondatxe, near Bilbao, Spain.

### **IGCP 40TH ANNIVERSARY CELEBRATION 22 FEBRUARY 2012**

### **NOTE - NEW DATES FOR CCOP MEETINGS**

The Coordinating Committee for Geoscience Programmes in East and Southeast Asia (CCOP) wishes to inform all of their Member Countries, Cooperating Countries, Cooperating Organizations as well as its Honorary Advisers that because Thailand is still recovering from the devastating flood, and to give due consideration to this situation, and after consultation with all the CCOP Member Countries, CCOP has come to a decision to re-postpone the 48th Annual Session to October/November 2012. The host country will be discussed at the CCOP 58th Steering Committee Meeting now re-scheduled for March 2012. Further details regarding the venue will be announced after the 58th Steering Committee Meeting. For all news go to: <http://www.ccop.or.th/news.asp>.

### **THE IGBP NEW WEBSITE**

The International Geosphere-Biosphere Programme (IGBP) has launched a new website <http://www.igbp.net> which contains more multimedia content, news, features, opinions, and more content on issues like the Anthropocene and the Great Acceleration. The site aims to have a better platform to engage a broader audience. IGBP is now also on Facebook and they plan to engage more with other social networking tools. As part of IGBP's communication refocus they will now distribute fewer copies of the IGBP magazine "Global Change". Instead, they will be sending monthly digital updates to their entire network.

### **THE AGI HAS CHANGED ITS NAME**

The American Geological Institute (AGI), founded in 1948, has now changed its name to the American Geosciences Institute (AGI). This has arisen because over the years the AGI science has become more integrated, incorporating many disciplines such as chemistry, physics, computer sciences, and biology to achieve a greater understanding of our planet. As the discipline has evolved, so too has AGI's membership. Today AGI's 50 Member Societies make up a diverse set of organizations that truly exemplify the rich and multifaceted nature of the Earth sciences. Therefore, to better reflect the broad range of scientists the AGI represents it has changed its name to the American Geosciences Institute. This is not a material change of what AGI does, nor is it a change to the focus of their programs. It is simply a public recognition that understanding our planet has become a wide-ranging endeavour, and that AGI can and will evolve to meet the challenges of the coming years. See <http://www.agiweb.org/>

### **REPORT ON U.S. AND INTERNATIONAL PERSPECTIVES ON GLOBAL SCIENCE POLICY AND SCIENCE DIPLOMACY**

A report of the workshop that took place in late February 2011 entitled "U.S. and International Perspectives on Global Science Policy and Science Diplomacy." has now been released. This report is the result of a U.S. National Academy of Sciences (NAS) workshop, requested by the Office of Science and Technology Policy (OSTP). The report can be read online, free of charge, at [http://books.nap.edu/catalog.php?record\\_id=13300](http://books.nap.edu/catalog.php?record_id=13300)
