

RFG grants First and Second Open Call

First Open Call

Project Leader(s)	Affiliation	Title of the project	Grant (\$)
Qiuming Cheng & others	China University, Beijing and York University, Canada	Quantitative assessment and prediction of deeply buried mineral resources in covered regions	2000
Kedia Chi & others	University of Buea, Cameroon	Capacity building for stakeholders in artisanal gold mines, Eastern Cameroon	3700
Judith Kinnaird & others	University of Witwatersrand, South Africa	Germanium for society - now and in the future	3400
Gavin Mudd & Simon Jowitt	Monash University, Melbourne, Australia	Validating new methods for global resource estimates of critical metals	3000
Andrea Rielli	Monash University, Melbourne, Australia	Metasomatic alteration of the sub-arc mantle: implications for arc metallogeny and the redox state of the Earth	3100
Isobel Yeo	GEOMAR, Kiel, Germany	Acoustic properties of ferromanganese crusts and substrates as a tool for e-tech exploitation	3100

Second Open Call

Project Leader(s)	Affiliation	Title of the project	Grant (\$)
Nicholas Arndt	Grenoble Alpes, France	Public perception of the minerals industry	3000
Maria Amelia Enriquez	University of Para, Brazil	Mining royalties - challenges and opportunities to achieve Sustainable Development Goals and intergenerational equity in the peripheral mining regions	3000
Damien Giurco	Institute for Sustainable Futures, University of Technology, Sydney, Australia	Global projection of lead-zinc supply from known resources	2750
Raymond Kudzawu-D'Pherdd	Accra Mining Network, Ghana	AMN capacity building master class in sustainable and responsible small-scale mining	4400
Laura Sinclair	Cornell University, USA	Mineralogical examination of leached tails for the development of copper in situ leaching	3130
Margreth Tadie	Stellenbosch University, South Africa	Impacts of cation-substitution on the geometallurgy of sulphide minerals	4021
